

## ATTIRE

You are welcome to have your child wear any clothing that falls within the Cranston Public School's dress code. That being said, a few things to keep in mind when choosing your kindergartener's clothing for the day.

- Your child needs to be able to attend to their own needs in the restroom and throughout the day. They will need to be able to unfasten and fasten their clothing independently. Please work on zipping, buttoning, and putting on outerwear, starting now.
- We go outside and play every day. Running, jumping, and climbing takes place. We also sit and do activities on the floor. Other class activities will include paint, clay, and other mediums that may get on your child's clothing.
- When we are outside your child will want to run and play. **The safest shoes to do that in are sneakers.** Under no circumstances will we be able to tie your child's shoelaces. Please buy velcro fastened sneakers/shoes if your child cannot tie their shoes.
- Be sure to dress your child for the weather each day as we will go outside for recess and snack breaks unless there is active precipitation. It is very hot at the beginning of the year, but as the weather becomes cooler we will still be going outside. Make sure your child has appropriate clothing for the weather so that they will be comfortable.
